

Wheelchair Interventions: Putting it All Together

On Demand Course

PRESENTERS: Leslie Wade, MOT, OTR/L

TARGET AUDIENCE

This program is designed for Occupational Therapists, Occupational Therapy Assistants, Physical Therapists, Physical Therapist Assistants, Assistive Technology Professionals, and Medical Suppliers/Providers.

COURSE OVERVIEW

Understanding how and why to recommend individualized complex rehab technology equipment for end users is critical to their independence, function, and safety. There are no “standard” solutions when providing complex rehab technology. Each client is unique and deserves a system that is tailored to their individual needs and goals. Increased activity participation and decreased complications with body functions and structures should then facilitate improved quality of life for the client. It is critical to understand the process, and how to document the justification for the recommended solutions. This one-hour course will discuss the strategy for the documentation through case examples and best practice for equipment delivery and training on proper usage

LEVEL— Beginner | **INSTRUCTIONAL METHOD—** Recorded on-line asynchronous lecture with supporting video demonstration

CEU OBJECTIVES

By the end of the presentation, participants will be able to:

1. Describe 3 aspects of training and delivery of mobility devices that must be integrated for the best outcomes.
2. Identify 2 roles specific to the licensed Medical Professional in the Complex Rehabilitation technology (CRT) equipment provision process.
3. Explain 2 objective, functional outcomes that can be documented to justify an optimally configured wheelchair.
4. Identify 2 ways individualized CRT equipment can increase independence, function, and safety for end users.

AOTA CLASSIFICATION CODE(S)— Category 2: Occupational Therapy Process

STATEMENT OF CLINICAL RELEVANCE

Content of the activity directly relates to the scope of practice of occupational and physical therapy as defined by the American Occupational Therapy Association (AOTA) and the American Physical Therapy Association (APTA). Visit our website www.permobilus.com for more details.

COMPLETION REQUIREMENTS

In order to obtain CEU credits, participant must, register with payment, listen to 100% of the course content, achieve a 70% score on the post test, and complete an on-line course assessment following completion of the course.

OUTLINE

Minutes	Topic
5	Introduction / Overview/ Review Course Objectives
15	Describe 3 aspects of training and delivery of mobility devices that must be integrated for the best outcomes
10	Identify 2 roles specific to the licensed Medical Professional in the CRT equipment provision process.
10	Explain 2 objective, functional outcomes that can be documented to justify an optimally configured wheelchair.
15	Identify 2 ways individualized CRT equipment can increase independence, function and safety for end users.
5	Summary / Statement of communication with instructor for all questions and discussion points
